

CSS Quiz

Due No due date
Time Limit None

Points 18 **Questions** 18
Allowed Attempts Unlimited

Instructions

This is a **practice** quiz that will not count toward your completion of this course.

You should take this quiz to verify that you have mastered important CSS concepts before starting the JavaScript module of the course. You may take the quiz as many times as you wish.

The quiz results will tell you whether each of your answers was correct or not, but they will not tell you what the correct answers are for questions that you do not answer correctly. Instead, you should review the course content to better understand the mistakes and try the quiz again.
